

## Arizona Weekly Enterprise

FLORENCE, SATURDAY, NOV. 19, '81

### Arrival and Departure of Mails.

Eastern and California Mail arrives at 11:30 a. m. and closes at 2:30 p. m.  
Local Globe and Silver King Mail arrives at 12 m. and closes at 12:15 p. m.

Office Hours: From 9 a. m. to 1 p. m.; from 1:30 p. m. to 5 p. m. and from 6 p. m. to 7 p. m. Sundays from 11 a. m. to 3 p. m.

### Home News.

A new meat-market has been opened on Bailey street.

Mr. Jesse Hardesty returned from Globe Tuesday.

Mr. Alex. Goodfellow and Mr. J. Champion, of Pinal, were in town this week on business.

Mr. Leo Goldman, of Pinal, is making preparations to open a branch store at the Silver Belle Quartz.

Mr. Hill Deamitt has gone out to the mines of Cabibi district to look after his own and his partners' interests.

Travel by stage and private conveyance is rapidly increasing in this section, a fact indicative of a growing interest in the mining and other resources of our country.

Messrs. H. Scholushen and N. McKenzie left for Tucson this morning on business. We commend them to the good graces of the dwellers of the metropolis.

Three bars of bullion from the Mack Morris, of the Globe district, passed through Tuesday. It was consigned to J. V. Stout, New York, and worth \$5,233.23.

Mr. Hardesty, of Florence, has bonded the Deputy mine located in the Globe district, to Messrs. Young and Eston, of Globe City. We did not learn the consideration.

The money-order business at the Florence postoffice has averaged \$500 per day this week. This, we submit, is not indicative of a dearth of business in this section.

One of Recorder Devine's little boys was dangerously ill with fever the earlier part of the week, but we are pleased to note has passed the crisis and is steadily improving.

Just out of pawn, an 18-karat, 4-ounce case, stem-winding gold Howard watch, valued at \$200, can be bought for \$120 at Uncle Harris', 221 Kearney street, San Francisco.

Henry Scholushen's father, who is ranching out on the San Pedro, has been suffering from fever and ague for some weeks past. We hope to hear of his speedy recovery.

Buckalew & Ochon have fitted up two wagons and teams and sent them down to haul bullion from their mines in Sonora to Tucson, and to haul supplies from Tucson to the mines.

Sam Bostie is arranging for a turkey-shooting at the race-track on Thanksgiving day. The range will be two hundred or two hundred and seventy yards. Clean up your guns, boys.

Fifteen bars of bullion, worth \$26,000, came down from the Silver King mine, Wednesday, and were forwarded by Wells, Fargo & Co.'s express to Col. Jas. Barney, at San Francisco.

Master Joe Champion, a bright and interesting little fellow, has been enjoying himself here for a few days, and returned to Pinal with Mr. Goodfellow yesterday. His father went on to Florence.

Mr. C. W. Tillman, our "boss" carpenter, is making arrangements to deal in lumber, blinds, sash, doors, window glass, etc. This will be a good market for this class of merchandise, and we predict success for Charlie in advance.

Mr. Horace L. Smith, of Florence, was in the city yesterday, on important business, and returned home last evening. He is a pleasant gentleman with whom the people of Tucson hope to be better acquainted.—*Gliscot*

Mr. C. D. Henry and John D. Sibbalds, of Mineral Hill, were in town this week ordering new supplies for that growing camp. Mr. Henry will erect a new frame residence at the Seven Cottonwoods as soon as he can get the lumber hauled in.

Mr. W. L. Bailey, of Pinal, came down to Florence, Friday, to send a telegram to Washington to inquire about the condition of his father, who is lying dangerously ill at his home near that city. We hope he may receive a favorable reply.

The hotel arrivals at Tucson, as published in the journals of that city, are surprising. The lists of names are more voluminous than those usually seen in the metropolitan papers, and shows the travel into Arizona to be enormous at present, and still increasing.

Louie Rony returned from Mineral Hill Tuesday, and says the reports of blazes are so numerous in that busy camp now as to create the impression, when you approach the camp, that a battle is in progress. Men are at work all over the district and are striking good ore all along the line.

Mr. Jose M. Ochon returned from Globe City Wednesday, and reports matters lively in the mining circles of that district. He closed out his store at that place, the firm having so many business interests in this county that their whole attention is required here.

Mr. Aaron Mason, of the Silver King; Mr. Henry Donnelly, of the Silver Belle Quartz and County Treasurer P. R. Brady left for the Papago country Thursday to examine the Vekol mine, the property of Treasurer Brady and Judge J. D. Walker. Before returning, Mr. Donnelly and Mr. Mason will make a trip into Sonora on mining business.

Thursday we noticed Hinson Thomas rushing up the street with a smile on his face as bright as the head-light on a locomotive, and a pair of snails under his arms. We halted him, but he only shouted, "It's

a boy!" and sped on as if he had a long way to go and only five minutes' time in which to make the trip. He lifted the weights on the nine pound notch. Our congratulations are herewith presented.

W. H. Sutherland, of the Arizona Stage Company, came down from Dripping Springs Wednesday. He has been haying and repairing road. Overseer Blair, he said, is doing good work and has the road in first-class condition between here and Dripping Springs. Within two weeks work will be commenced on the road over the summit, and we will soon have a splendid route between here and Globe.

Mr. Isaac D. Smith and Mr. W. H. Merritt, left for the Owl Head district Monday to push work on the Jessie Benton. The stock of this new company will be largely taken here at home, where the merits of the mine and the reliability of the incorporators are so well known. Those acquainted with the mine are confident that it will commence the payment of dividends as soon as the mill is completed and commences to crush ore.

We were pleased to make the acquaintance, Tuesday, of Mr. S. P. Hall, of Pinal, who passed through en route to Casa Grande to meet his father, mother and sister. The latter arrived at Casa Grande from the East on Thursday and left immediately for Pinal, their future abiding place. Their arrival will make quite an addition to the already large and excellent social circle of that place. The Enterprise always has a welcome for such people.

We are glad to welcome Mr. J. W. Davis, formerly of Pinal, as a permanent resident of Florence. He is one of the brightest young lawyers in Arizona, a man of mind and merit, and a perfect type of the gentleman. He has formed a copartnership with Horace L. Smith, of this place, who is an accomplished attorney, and their combined talent will make the law firm of Smith & Davis one of the strongest of the Territorial bar. We can recommend them to our readers as reliable and capable.

We acknowledge the receipt of an invitation to attend the social dance, given at the Silver King hall last Wednesday evening under the auspices of the Lotus Social Club, of that place, and regret that circumstances did not permit of our compliance with the request. The Silver King people are proverbial for agreeableness and hospitality, and we know of none with whom an evening could be more enjoyable and profitably spent. We shall say that thriving town a visit at the first opportunity.

Mr. Frank Aronson, representing San Francisco manufacturers of the famous riveted boots and shoes, was in Florence Tuesday, and sold three of our merchants \$5,000 worth of boots and shoes, the largest bill he sold in any one town in the Territory. This is the kind of a business the merchants of Florence are doing and the kind they will be doing when the fly-brained and flapping pencil pusher, who habitually sneers and sneaks at Florence, is munching mush in the grey-headed end of the poor-house at the expense of the county.

Last Sunday we were agreeably surprised to see the smiling face of an old acquaintance of Tautonic extraction appear at the door of our sanctum. After certaining us closely to make sure that we were the lad he had lost—more than a year since—and was looking for, he was as happy as a harvest hand at quitting time. His name is George Lang and he used to run the engine and press for us at Silver Cliff, Colorado, and "py sheemany he was glad to see dat 'oy once more." George is a good worker, intelligent, good-natured, and as full of wit as a comedy company.

Mr. F. A. Adams arrived here from Pinal Sunday, and commenced work Monday on a new stable for Mr. Aaron Mason, at his ranch below town. The stable will be the largest in this section and its plan is of the latest style. Mr. Mason has purchased some fine blooded horses in California and means to provide comfortable quarters for them. Mr. Mason will have one of the best stocked, best appointed and most beautiful ranches in the Territory inside of a year. A visit to his place at the present time would astonish eastern people who imagine that Arizona farms and houses are still fashioned and conducted after the primitive styles.

Hon. A. J. Doran, assistant superintendent of the Silver King mine, was in town this week, and kindly invited us to visit that chief of mines. It grows larger and richer with depth. They only run the twenty stamps ten hours per day, and two men can mine enough ore to supply them, and yet the output last month, including bullion in bars and concentrations, amounted to one hundred and fifty thousand dollars. It is certain that the King mill facilities will be increased soon and that the new works will be located at the Gila river. They are getting their wood now within twelve miles of Florence, and this is one of several reasons for constructing the new works at the river.

Mr. C. N. Perkins, of Ottawa, Ill., is expected to become a resident of Florence soon. Mr. Charles Beckwith, of the Silver King hotel, of this place, is father-in-law to Mr. Perkins, and has written a letter soliciting him to come hither and take charge of the former's interest in the hotel. Mr. Perkins lost all his buildings and goods by the recent large fire at Ottawa and will probably accept Mr. Beckwith's offer. We hope he may, for he will bring with him an educated and refined family, the kind of population we desire. Mr. Perkins is in the prime of his manhood; is a man of business industry and correct habits. No country offers greater inducements to men of this make and mood than does Arizona.

Johnny Sower, with an eye to business, has taken a contract to repair the road leading from Florence to Mineral Hill, on the north side of the Gila and commenced work Monday. A party of men unlearned, some two weeks since, to build a road from here to the same camp on the

west side of the river, but on reaching the old ford, about six miles above town, found it had been washed out to such an extent as to render fording impossible, even in the low-water season. Consequently they gave up the undertaking. The road now building will be little more expensive, but when completed will be equally as good as the other would have been. Our citizens and merchants, who are furnishing the money by subscription, are satisfied with the change of routes.

Mr. J. J. Devine, County Recorder, returned Friday from the East. He spent the past few weeks in Washington and New York, consummating the sale of his Mineral Creek mining property, and we are pleased to say, met with good success. He left Maj. Sison, who accompanied him on the trip, at San Francisco. The Major was taken down with malarial fever between Washington and Pinal, and was confined to his berth during the entire trip from the Capital to the Golden Gate city. He is convalescent now, and will probably be himself again within a few weeks. Mr. Devine says eastern capitalists are excited over copper mines and are looking toward Arizona for investment. We are glad to see him back.

Charles Rapp and J. A. Simpson made a flying visit to the Silver Belle Quartz mine this week and brought back good reports of the property. There are about twenty-five men at work on the mine sinking, drifting and tunneling, and the developments have shown up a large body of fine ore. On the road leading from the mine to the mill-site at the river, there are forty men at work under Mr. Cochran, and they have completed over four of the six miles of road to be graded. The road is constructed in such a way that it will resist the floods during the rainy season and will not become soft when the water courses over it. Mr. Cochran is proving himself a master road builder. The work will be completed by the 1st of January.

Mr. John Owens, of the Florence flouring mill, has introduced a new bolting cloth process at said mill, and by the new method is enabled to improve on the flour he turns out. By the old method he made as fine a quality of flour as could be had in the Territory, and therefore the new brand is simply matchless. Mr. Owens commenced operations Monday with the new improvement on a three hundred thousand pound grist of wheat for Messrs. Austin and Dempsey of Montezuma. This is Gila valley wheat and is only a small per cent of the wheat raised here this season. When we consider that a large per cent of the acreage under cultivation was planted to other crops, we can realize that our agricultural resources, even though they be in their infancy, are by no means insignificant. Once subject to thorough and intelligent cultivation, all the available agricultural land in this valley and the product would be sufficient to supply the markets of Southern Arizona. This possible and desired stage of agricultural development will probably be reached within a few years. Thead Vance has already begun, but progress is slow for the reason that most new-comers see the possibility and probability of more rapid accumulation through investment in our mines and seek this field in preference to the former.

Mr. John Williams arrived here from San Francisco Tuesday, and has gone up to Riverside to make a thorough test of the Pinal Copper Company's mines. Some time prior to the closing down of the company's furnace by attachment, Mr. Williams was in their employ in the capacity of smelter, and he is here now by the direction of the old company. It is now certain that the affairs of this company will be brought to an immediate settlement, either by Sheriff's sale or by compromise and payment of the present indebtedness. It is impossible to say at this writing which of the two ways of settlement will be adopted. Mr. Bolinger, the former resident manager of the company, is now in New York endeavoring to dispose of the property to a new company. This company, we understand, telegraphed Mr. D. T. Elmore, of Pinal, to examine the mines and telegraph them a report. He complied with their instructions last week. We could not ascertain whether his report was favorable or adverse. If the former, the company will probably buy and stop the sheriff's sale. If they should fail to do so, and the report of Mr. Williams should be favorable, monied members of the old company may come to the rescue. Should both fail, the property will be sold by the Sheriff to the highest and best bidder on the 1st, and there will be a chance for some one to secure a bargain.

Mr. J. B. Rupley is in town taking a brief rest and laying in supplies preparatory to commencing work on his claims in the vicinity of Cottonwood Station. He has just completed a contract on the Treasure mine, located about two miles northwest of the Pioneer South mine and owned by Schetter & Co. He sunk fifty feet on the old shaft, making a total depth of fifty-six feet. The shaft is in good ore all the way down. The pay-streak is about eighteen inches wide and assays \$200 to \$300 from the top to the bottom. There are about twenty tons of this high-grade ore on the dump. He reports things lively at the Pioneer South mine. The main shaft is down over one hundred feet and shows an abundance of high-grade ore. The workmen have stopped sinking on account of water and are drifting to determine the width of the ore body. New hoisting works have arrived on the ground, but are not in place yet. As soon as they are in position the shaft can be kept clear of water and sinking will be resumed. The Pioneer is undoubtedly a large and rich mine. There are at least fifty tons of high-grade ore on the dump, he says. On his way down he stopped at the Black Ben camp, and says the boys at that place are making rapid progress in the way of sinking. The Black Ben improves with depth and promises to develop into a large and permanent mine. A splendid copper strike has been made in that vicinity, but he did not learn the name of the mine. The ore, he says, is apparently of very high grade.

Mr. C. N. Perkins, of Ottawa, Ill., is expected to become a resident of Florence soon. Mr. Charles Beckwith, of the Silver King hotel, of this place, is father-in-law to Mr. Perkins, and has written a letter soliciting him to come hither and take charge of the former's interest in the hotel. Mr. Perkins lost all his buildings and goods by the recent large fire at Ottawa and will probably accept Mr. Beckwith's offer. We hope he may, for he will bring with him an educated and refined family, the kind of population we desire. Mr. Perkins is in the prime of his manhood; is a man of business industry and correct habits. No country offers greater inducements to men of this make and mood than does Arizona.

Johnny Sower, with an eye to business, has taken a contract to repair the road leading from Florence to Mineral Hill, on the north side of the Gila and commenced work Monday. A party of men unlearned, some two weeks since, to build a road from here to the same camp on the

### MINERAL HILL NOTES. A Rich Strike in the Specie Paying.

A rich strike was made in the Specie Paying, Tuesday, in the shaft sunk to cut the ledge 200 feet below the croppings. The assays from the ore go from \$700 to \$800. The width of the ore body has not been determined yet, but the ledge is from thirty to fifty feet wide on the surface it is undoubtedly very wide at the point where the shaft taps it. The ore is galena and black sulphurets. This mine is the first south extension of the noted Alice mine, and is the property of the Indiana Company. The strike demonstrates two facts; first, that the Mineral Hill ledge goes down and second, that they grow richer with depth.

Horn silver has been struck in the Mineral Hill mine and in the Grizzly Bear. The former is the property of the Indiana Company and is a magnificent piece of property. The Grizzly Bear is the first south extension of the Mineral Hill and gives splendid promise.

A twenty-foot tunnel has been run on the Lelo, toward the ledge, and boulders and float from the ledge found in the tunnel are full of horn silver. Twenty feet more on the tunnel will carry it to the ledge at a point about sixty-five feet below the surface. There is good reason to believe that fine ore will be uncovered at this depth.

The Alice is still improving. The south winze is over one hundred feet below the surface and the vein is coming in more solid and richer. The north winze is showing more and better ore with depth. The cuts in the north croppings continue to uncover rich horn silver.

The Time Keeper and Pacific are turning out fine shipping ore in growing quantities. The owners have commenced to ship ore to the Melrose smelter.

Charlie Weiser, while hunting for his horse Tuesday, found a ledge, from which he obtained malleable silver. He monumented the ledge without delay and had the claim recorded Thursday.

A number of new discoveries have been made this week, all of which show well on the surface.

Two loads of the lumber for Mr. Henry's new home have arrived and work will commence on the building at once.

Numbers of new men have come into camp recently and more are coming. A large amount of work is doing.

We made the acquaintance, Tuesday, of Mr. L. Gilson, a mining man of San Francisco, and Mr. Covington Johnson, Superintendent of the Hermosa company, at Harshaw. These gentlemen came hither to examine the copper properties now developing under the management of T. E. Tibbets, at Riverside. During a conversation with them on that subject, they expressed themselves as well pleased with the showing. The developments have not progressed sufficiently to determine with certainty the value of the mines, but the indications are flattering to a high degree and denote both permanence and richness. The gentlemen are satisfied that the claims are good ones, and their combined judgment will have weight in the mining circles of San Francisco, where they are known as reliable experts. Speaking of the Pinal Copper company's furnace, Mr. Johnson said that he made a casual examination of it and felt confident that it would be a perfect success under the management of a competent smelter. He examined some of the ore from the Ray mine and said it was not only rich in copper, but would smelt beautifully. Both the gentlemen were pleased with the physical appearance of the country at and between Riverside and here, and are satisfied that it is a rich mineral-bearing region. They also expressed surprise at the beauty of the location of Florence and the fertility of the Gila valley, as evidenced by its luxuriant vegetation not yet scared by the winter's withering winds. They left Wednesday, Mr. Gilson for San Francisco, and Mr. Johnson for Harshaw.

### -PINAL COUNTY RECORDS Furnished by Jno. J. Devine, County Recorder.

For the week ending November 18, 1881:  
Mississippi, Pioneer district—Horace L. Smith.  
Surprise, Mineral Hill district—C. O. Miles, Peter Shaffell.  
Wolverton, Pioneer district—H. E. Beach, D. H. Taft, E. S. Hershey.  
Ella, Pioneer district—A. Goodfellow, C. H. Wheeler, S. F. Gladwin, C. M. Gilmore.  
Minnesota, Pioneer district—J. Champion, J. A. Filmore, A. Goodfellow.  
Philadelphia, Pioneer district—C. B. Weiser, F. H. Maxfield.  
Phoenix, Mineral Creek—D. H. Snyder, C. E. Taylor.  
Copper Point, Mineral Creek—C. E. Taylor.  
Marmona, Pioneer district—A. D. Brewster, Will. A. Henry, Thos. F. Weedlin.  
DEEDS—MINER.  
T. C. Weed to Horatio Collins, 1 Hackney, 1 Aaven; \$100.  
S. R. Sands to A. R. Young, 1 Little Darling, 1 May Flower, Casa Grande district; \$150.  
Benjamin Davis to C. W. Culver, 1 Goodenough, Pioneer district; \$4,000.  
Charles H. Wheeler to C. W. Culver, 1 Goodenough, Pioneer district; \$4,000.  
John D. Sibbald to D. J. Beesly, 1 Ellen Gowan, Mineral Hill district; \$5,300.  
James M. Day to George B. Walker, 1 interest in Corporal mine, Casa Grande district; \$1.  
Lynan Ferre and wife to Ferre Mining Company, Bee No. 2 mine and mill-site; \$2.  
Peter Whitmer (trustee) to Ferre Mining Company, Pride of the West, Bee, San Pedro district; \$1 and other considerations.

J. D. Gilbert to Alex. H. Dryden, 1 Gregory, Pioneer district; \$300.  
A. D. Brewster to Chas. W. Tillman, 1 Elips, Halstead district; \$250.  
S. P. Hall to B. W. Hall, 1 interest in lot 63x200, Pearl street, Pinal; \$1,250.  
B. W. Hall to S. P. Hall, 1 interest in lot 55x200, Pearl street, Pinal; \$1,000.  
Wing Lee to C. M. Gilmore, lot 50x150, Queen Creek, lot 123x100, Mill street, Pinal, with buildings; \$200.

MORTGAGE.  
Jos. Flumm to C. M. Gilmore, 1 Redeemer, 1 Helmsnet, Pioneer district; \$130.

MISCELLANEOUS INSTRUMENTS.  
Bond—Mait Cavanaugh, David Beesly, James Dillshaw to William Penn Miller, Alice; \$75,000.  
Mill-site—Vekol mine, adjoining Bitter Wells, P. R. Brady, J. D. Walker, L. E. Walker.  
Mark and brand for cattle—Rev E. Girard.  
Mark and brand for cattle—W. R. Atchley.

Lien—Josiah Champion vs W. H. Hall.
